

ST Colours A-School

How to get Funding from your family

We get it.

You don't have money to afford the courses.

You need to convince your father/mother/uncle/aunty/brother/sister/cousin/husband etc to pay for the course, but you don't know how to convince them.

This guide will help you

Because if the course is right for you,
we want you to be in our online
classroom

Hot questions

Question: Why do you want to take this course?

Your response: I think it will be a great way to explore my creativity. I really like making things with my hands, I like Ankara fabric, and I want to see what I can make with it. It has always been my dream to start an Ankara Accessories business.

I want to learn how to run a business, and this will give me a good opportunity to learn and gather valuable experience that I can use in the future. You know these days, you cannot automatically get a job after you graduate, so I have to prepare myself for the future.

I can also make extra cash for myself. I don't have to be disturbing you every time I need money for one small thing.

Hot questions

Question: I have paid for your other training programs, how is this one different?

Your response: No knowledge is wasted. I have learnt some things from the other training programs, and I am sure that they will come in handy some day. However there are new things I want to learn from ST Colours A-School.

In ST Colours A-School, they don't just teach the techniques, they teach you how to think in order to be creative. I can also apply this in the other things I am doing.

Hot questions

Question: You say the course is online? So how does it work?

Your response: They have training videos that you can watch online, and they give you access when you pay for the course. You can pay to watch the videos for a minimum of 30 days and during this time, you can watch the videos anytime you want and as many times as you like. If you have any question, you can send it to them and they will reply you within 24 hours.

You can watch the videos wherever you are, using a computer, a phone or a tablet that is connected to the internet

Hot questions

Question: The amount is expensive. Are you sure it is worth it?

Your response: If we compare this amount to how much I could spend if I had to learn how to make these things on my own, the price is very reasonable. In the school, you get to learn the shortcuts and the easiest ways to get things done, and you get to tap into Stephanie's wealth of experience. She has been making and selling accessories since 2004.

You also get lots of bonuses that you can't get anywhere else, so it is really value for money.

Hot questions

Question: Have you met this person before? How do you know she is not going to run away with the money after we have paid her?

Your response: Hahahahaha, not every online business in Nigeria is yahoo-yahoo. I have been following her online for quite some time and she is building a legitimate online business. She blogs at <http://www.stcoloursaschool.com/blog> and you can find out more about her on her website, www.stephanieobi.com

I am not the first person to buy things from her online. Other people have patronized her business online since 2011, and no one has complained on Facebook or Twitter that she ran away with their money. I don't see why she will want to destroy the reputation she has been building all these years.

Hot questions

Question: Tell me more about the person organizing the training?

Your response: Stephanie Obi is an MBA with a First Class degree in Computer Science. She started her first accessories business in her 2nd year at the university and has continued making and selling accessories all the while she was schooling, serving and working.

She has also worked at Ericsson, The Tony Elumelu Foundation and L'Oreal. She brings all her experience to create relevant training programs for women entrepreneurs

More Questions?

If there are more questions that are not covered here, you can just send us a mail at info@stcolours.com
We will be happy to respond

The world is waiting for you

See you in class!
